## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, drawn to a coaxial spindle cutting saw, classified in class 83, subclass 676.
  - II. Claims 12-15, drawn to a method of making two saw cuts simultaneously, classified in class 83, subclass 34.
  - III. Claims 16-19, drawn to a multi-piece hub for dual twin coaxial spindle cutting saws, classified in class 83, subclass 665.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions III and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention III has separate utility such as the multi-piece hub can be used in a multi-blade edger wherein the blades are essentially saws. The multi-blades are used to make a wider space between the pavement and the grass. Also, it could be used as a tiller on a farm for setting the width of the till. See MPEP § 806.05(d).
3. Inventions II and Inventions I and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this

Art Unit: 3724

case a different apparatus is possible, for example, the spindles need not be assembled by sliding, but can comprise elemental halves that clamp together in position to form the whole spindle.

4.. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

### *Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Isaac Hamilton whose telephone number is 703-305-4949. The examiner can normally be reached on Monday thru Friday between 8am and 5pm.
